There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustardplaster burned and blistered while it acted. Get the relief and help that

mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does

not blister the tenderest skin. Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.
Use Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chil-blains, frosted feet, colds of the chest

Dennis Murphy who has been at his home here for a few days, leaves today for Indianapolis where he will join the Toledo club. Murphy was given a tryout with the Yanks this spring. The following elipping is from the Globe and Commercial Advertiser concerning Murphy's release: "Considering the shortage of good catchers this spring it is hard to understand why Dennis Murphy has not been claimed by some major league club. Murphy is a better catcher than several now in the big show and the only reason that he is not slicking to Yanks is lack of opportunity. He is Yanks is lack of opportunity. He is fast and throws well and ought to hit. However, a string is to be attached to Morphy and after and after a season in the minors he may come back to stay. It is understood that Murphy was transferred to the New York club under an agreement that he is to be returned to Toleda if no major league club desires his services.

### Practical and Economical

Probably the best evidence of the practical nature of Oakland Cars is found in the fact that the large majority of Oakland owners is found among merchants, farmers and professional men-a very discriminating class of buvers. The demand of the farmer for a Sensible, Practical and Economical Car, as well as the merchant's knowledge of values, and the professional man's appreciation of correct principles of design, results in their selection of the Oakland for its practical utility.
